## Our Civil Service Board Has Initial Thorough Workout

Legal Fireworks And Inadequate Evidence Mark Pennington Trial

Woe is us! We got mistakes! Must be getting paid! Lack of pinpointed and specific data made clear to employees in writing and unregulated procedure from City Judge, then to and from the police department and street department were brought out at Pennington trial.

Passive preparation of evidence and prosecution of charges, or charges without available and admissible proof is very evident.

After five and one-half hours of a "free-for-all" among the two defending lawyers and the prosecuting City Attorney Allen, the Civil Service Board reached a decision of "third."

Mayor Rubin, has just returned to the City from business trip to the State, and issued the following statement, which is the result of the proceedings in the Pennington case before the Civil Service Board.

"The Civil Service Board in their findings in the Pennington case have brought to light certain procedures in the several departments of the City as defined by the City Commission that are not thoroughly understood by Department Heads and employees."

"Therefore in order to correct this, I, as the Mayor, have asked the Commissioners in charge of the various departments to issue written orders to Department Heads and employees defining regulations and duties in detail."

day's suspension without pay for Tom Pennington.

The Board found the evidence presented by Street Commissioner Julius Harris and his attorney, too weak to pass a stronger sentence upon the defendant.

About the only thing Harris presented to the Board that held water was the fact that he was not present.

## Belle Glade High Band Struts In Annual Fiesta Parade At Lake Worth

The third annual Fiesta del Sol celebration has been the toast of the week in Lake Worth, with our own Belle Glade High School band being one again privileged to show off to the Goldcoasters.

Ten flashy units of bands and drum corps assembled around 5:30 on Wednesday afternoon and high-stepped it along the Dixie Highway from 2nd Avenue to Lake Ave. and thence to M Street.

Units included, B. O. Girl and Boy Scouts, bands from Vero Beach High, Coniston Junior High, Seacrest, Pahokee, Palm Beach Indian, Ft. Pierce, West Palm Jr. High, Lake Worth, Ft. Lauderdale Legion Drum and Bugle Corps, and Belle Glade High.

The Ram band left this city at 4:30 P. M. and finally got to Lake Worth at 7:00 o'clock.

Chaperones for Belle Glade were Mr. J. H. Brent, Mrs. Howard Payne and Mrs. J. Robinson.

## Livestock Industry Forges To Front In P. B. County

Diversification Advocated By County Agents

Great strides in the livestock industry, a prominent wind has increased Palm Beach County herds to more than 25,000 head of cattle, has been termed the outstanding agricultural development in the county during the past year.

This development which has fostered a cutback in vegetable cultivation and has increased acreage converted to pasture land, was listed as a major project by M. U. Mounts, county agricultural agent, in his annual report to the Palm Beach County Commission.

Development of a growing cattle industry, particularly the rapid climb could be noted in the county for the past ten years, the county agent said.

Mr. Mounts said the best example of the livestock industry's rapid climb could be noted in the increased number of cattle which now roam the vast thousands of acres of pasture land.

Mr. Mounts said the best example of the livestock industry's rapid climb could be noted in the increased number of cattle which now roam the vast thousands of acres of pasture land.

## Methodist Scout Troop No. 22 Is Now Reactivated

National Troop 22 of the Boy Scouts of America, the oldest scout group in this community, has been officially re-activated.

Eleven members of the troop fell out for the first camping trip last Friday after school hours.

The boys spent all of Friday night in tents on the big dike between Belle Glade and Pahokee.

They were brought home about mid-morning Saturday, tired and dirty, but happy.

Each Scout took his own luggage, towels, bags, and camp gear.

They were under the supervision of the assistant scoutmaster, Mr. J. H. Brent.

Mr. Brent said the troop has been re-activated for the first time in many years.

## Funeral Services For The Judge By Those He Loved

Family and relatives were joined by lodges, clubs, religious organizations and professional groups to pay last tribute and respect to THE JUDGE.

Wednesday afternoon at 2:15, The Rev. L. F. Vandewater and representatives of the Florida Grand Lodge of the IOOF conducted the services at the Church with the local Masonic Lodge rendering the graveside rites.

Mr. Jerry, third degree Master, delivered the graveside oration.

Lodge officers of both the Grand Lodges and of the Florida Grand Lodge of the IOOF were present.

Lodge officers and Masons in proper regalia together with local members attended in a body of hundreds.

On Monday night the Elks Lodge of Soror with appropriate eulogy, and rites.

The Lions Club of which the Judge was a member, also held a service.

## Visiting Masonic Speakers Address Belle Glade Lodge

There was not a vacant seat at the rather unusual and interesting session of Belle Glade Lodge, No. 273, F and M, on Tuesday night, Jan. 10, when it had two distinguished speakers from Tampa, the personalities of Rev. L. E. McKidney, grand chancellor of the Grand Lodge, and Frank Schell, State Chairman of the Masonic Endowment Procurement Committee, which is endeavoring to raise \$2,000,000 in pledges for the St. Petersburg bridge.

It was a great treat to hear Mr. Schell give the story of the Florida Masonic history, and why it was necessary at this time to present and press the campaign for the raising of the Endowment fund. It was a double treat to hear the aged President of the Grand Lodge, Mr. McKidney, deliver the graveside oration.

Lodge officers of both the Grand Lodges and of the Florida Grand Lodge of the IOOF were present.

Lodge officers and Masons in proper regalia together with local members attended in a body of hundreds.

On Monday night the Elks Lodge of Soror with appropriate eulogy, and rites.

The Lions Club of which the Judge was a member, also held a service.

## States Taxpayer's Reap Benefit From Production By State Prison Farm

Local Farms Given Two Sizable Drug Line Work Contract

The Glades Appliance Corporation, according to its President, W. W. Weeks, the past week, has been awarded two sizable contracts by the Federal Government and the Okla. Sugar Corporation, aggregating around \$53,000.

The Army Engineers at Jacksonville accepted a bid for the improvement and re-location of Etowah creek in the vicinity of Palatka. "Job" will take up the big speed crane machine and one bulldozer, and will be busy there for around three months.

The work at the Okla. plantation calls for the erection of levees, roads and ditch work to be done in Sections 8 and 17 owned by that corporation.

## Cost Of Operation Is A Belle It Or Not In Government Experience

Lawmakers, Administrators, Officials, and most likely you will be flabbergasted when you are told that a substantial part of your state government is operating at practically no cost to the taxpayers. It's true, but the story of the past six months operation of State Prison Farm No. 2 at Belle Glade.

In February of '32, under Governor Carlton's administration, a block of lands owned by the Trustees of the Internal Revenue Fund was set aside for the State Prison Farm. The site was publicly made known and was offered for lease to the State.

At that time, the State Prison Farm was a small, isolated site for overflow from the State Prison at J. V. Knott, the State Prison at J. V. Knott, the State Prison at J. V. Knott.

## LIVESTOCK SHOW TO BE HELD IN APRIL

Plans are nearing completion for the second South East Florida Live Stock Show to be held the 4th and 5th of April, at the Belle Glade. The committee is glad to announce at this time that classes will be open for the dairy and beef type cattle and the following requirements will have to be met by all exhibitors: All single animals entered must be halter broken and trained to lead. Pens of three steers can be entered in the beef class, and these animals will not have to be halter broken. Exhibitors must furnish feed boxes and water pails for their animals and the responsibility for feeding and caring for them. Each exhibitor should be responsible for keeping the area assigned his animals in a clean, sanitary condition. All animals entered must meet the requirements set forth by the Live Stock Sanitary Commission. Exhibitors must assume all liability in case of injury or loss of animals while at the show. All pure bred animals exhibited must have been owned by the exhibitor for sixty days prior to the opening of the show.

Classes will be set up according to the standard classes for beef and dairy cattle. In case there is no exhibition in class, only second prize winner will be awarded. The committee is considering accepting exhibits of rabbits and poultry, but has not definitely decided about these two groups. In addition to the exhibits for rabbits, to participate in prize support for Irish potatoes, says Mr. Strickland.

Belle Glade Student To Receive BSE Degree At Mid Year Exercises

James Edward Williams, of Belle Glade, will receive his BSE degree at the University of Florida, Gainesville, at the mid year commencement exercises the night of February 4th. Dr. G. C. Gustafson, chancellor of the University of Nebraska will preside at the commencement address at academic exercises.

The 727 graduates for the mid term class set a new all time high for mid year graduates. And year's mid year total being 417.

## STATE FAIR TO BE IN TAMPA DURING FEBRUARY

The Florida State Fair, show window of the state's resources and opportunities, will open its annual 12-day run here Jan. 24 to Feb. 11.

Largest mid-winter exposition in the world and ranking fourth in the United States from the attendance standpoint, Florida Fair shows at the State Fair grounds in Tampa.

Thousands of Florida's winter visitors get an unusual thrill in the spectacular displays of fire, fireworks, coconut, sugar apple, tangerines and countless other varieties of fruits on display in mid-winter.

The 25 departments of the fair offer attractive exhibits of every kind, including cattle, sheep, swine, poultry, and horses.

**OBSERVATIONS**  
Continued from page 1  
It is expecting much construction in the immediate future. The optimistic spirit still continues with the Chamber of Commerce as to our future growth, in which most citizens concur.

That was not an unduly gesture the Florida East Coast Railway made to the city, on a share and share basis, for the improvement of important traffic streets in the industrial packing house section. Railroad provides engineering services and building materials, and the city to perform the work of rebuilding more than a mile of street work.

While the City of Belle Glade found out in 1948 that it had lost a considerable amount of monies by pilification of a trusted servant, the Administration is certainly taking every precaution to prevent any more like jobs. Safety measures have been inaugurated and new office machinery in the office, and new banking practices, seem to be setting up a safely handling of city funds.

Dads and Moms you may as well get it settled now that you are going to attend the circus on February 2nd. Why do I know, Well, I was a father of a child, I know the circus they can exert when desiring to go to some coveted attraction, such as a circus. Better have some loose change for popcorn, peanuts and candy, for the measure animals must be fed, and as the kids, Rogers Bros, say a bigger and better circus than last year.

The annual basketball for the school boys, the school boys, is to be a joint one, for both football and basketball. The private club is selling at 25 cents straight. Others to dealers state that there is a bit more sale for cigarettes, tobacco and pipe ammunition, and cigars, always popular with smokers, are also holding their own in sales.

There is not a uniformity present in Belle Glade. Most places sell at 25 cents the pack, and others at 30 cents. One private club is selling at 25 cents straight. Others to dealers state that there is a bit more sale for cigarettes, tobacco and pipe ammunition, and cigars, always popular with smokers, are also holding their own in sales.

Newspapers of the east coast cities of Philadelphia and Newark are giving much space to the religious and healing work of an eight year old evangelist called "Little David." This talented lad preaches the gospel with force and unction and combines it with strange powers to heal the sick, restore the sight of the blind, cause the lame to walk, the deaf to hear, and the dumb to speak. It reminds one of the story of the miraculous cures made by the man of Nazareth as carried on his work before the crucifixion on the cross.

Army Engineers and aerial photographers will soon begin making surveys and pictures of the important Kissimmee river valley in connection with the proposed flood control project, which the Engineers have declared the second most important link in the project. It is from this valley that mammoth amounts of water feed into Lake Okechobee. However, before reaching the lake, the river low lands, largely used for pasture are flooded, and in the past two years have done millions of dollars worth of damage. With these waters under control and regulation, much of the damages in the lake region will be avoided. Wonder what this entire central and south Florida section will look like 25 years hence.

"Jiggs," the dog owned by Officer Rudy, and the pet of the city hall gang, is no more. Dog-like, he wandered from home, and got under the wheels of an automobile and went to dog heaven in a hurry. That canine will certainly be missed, for he had a lot of sagaciousness, and a friendly dog manner. Senator Claude Pepper and Representative George Smathers are to oppose each other for the Senate, look out for a wide open "dog and cat" campaign, in which no punches will be withheld. Claude is a trained politician, an effective stump campaigner, and "wise" in the political game. Smathers has come along fast in the political game, and may be able to give his older opponent some points in modern campaigning.

The efforts now under way by the Grand Lodge of Florida, masons, is a most worthy movement. While the home at St. Petersburg has accommodations

for most of the aged people, there are some classes who owing to the type of illness are not amenable. This endorsement fund, that is the income from the home, is used to give care in hospitals or in homes. Two million dollars seems like a big amount, but it will be accomplished. With 44,000 Masons in the state, it would mean \$40,000 to be paid over a period of say five years.

The men who are working on the construction of the Community Methodist church, say that Dominie Vandewater is a real watchdog inspector, and that he misses nothing, and that he could be a good supervisor architect if he were not a minister. This is the third church he has had a hand in erecting in the Florida Methodist conference, Melbourne and Jacksonville. Rev. Jay O. Jameson, now in Miami, has a similar record. He is well along in the church building at Allapattah in Miami.

A roomful of Masons get much delight out of the way in which Rev. J. E. McDowell, grand chaplain, put the Truman and Warren administrations. The old pastor of the church, who had been a son in Washington helping Truman run the government.

Ramie has a great tentative value, if only some talented engineer or inventor can create a car his deconstructor. He will sell to the trucking business. The growing problem is already licked, market for the product, but the production of a standard processed ramie fiber for textiles use is not yet in the cards.

The Methodist WSSC is raising funds by means of a "Missionary Basket." The names of all members are listed in the basket will be passed. Each member takes the gift that is in the basket as her own. And places in the collection box a consequence sum of money, and another gift in the basket, to be passed on to the next step. The ladies hope to collect a reasonable sum for their treasury by this means.

The Government bureau who has the final naming of rivers and waterways now says that the Indian river is not correct, but that it is Jupiter sound and Inlet. The river is the Loxahatchee and not the North fork river. Guess that settles the question.

A subscriber wrote the editor of his local paper asking when and where it was proper for a gentleman to raise his hat. The editor replied:

"Without consulting etiquette authorities, I will give you a horse-back opinion on the subject, and suggest that the hat should be removed on the following occasions: When mopping a bath; when taking a cold; when eating; when going to bed; when having the hair trimmed; when being shampooed, and when standing on a soap suds."

—Santa Fe Magazine

Americans have long been accustomed to buying canned meats, pork, chicken and fish. Now a California firm has sprung a new one on us, in the form of turkey legs. It is a roast turkey meat, free from bones and gristle, compressed in various sized cylindrical rolls to meet the demands of the consumers. The roll is prepared for the restaurant and large homes demands, so that they can have turkey on tap for the chef's menus. There is also a simple mechanical roller, which will heat up the cold turkey and provide grease for the gravy and dressing. The Norbert Company, the largest Co-Op poultry handling firm in the world is the introducer of the turkey leg. Turkey in this form will come in mighty handy at Thanksgiving and the Holidays, when one can't use a big bird.

Mother was absent from the dinner table on Thursday, aged seven, sat in her chair and pretended to take her place.

Father was watching the child's solemn assumption of maturity as with ill-concealed glee, when her brother challenged her position with the remark: "So you're mother tonight? Well, if you're mother, tell me—how much is six times nine?" Calmly and without hesitation, Dorothy reflected, "I'm busy—ask your father!"

—J. Marcus Hill

Wear White At Night If You Plan To Walk On Public Highways. "Traffic safety is everybody's job," commented H. N. Kirkman, Director of the Florida

Highway Patrol, today, "and by that I mean that every person who walks, rides or drives has his share of responsibility for the needless tragedies occurring daily on Florida streets and highways. The efforts of the State Patrol combined with those of every law enforcement agency in the state can accomplish little without the active support and cooperation of the citizens of this state. We are asking every motorist and pedestrian to do his part to contribute a good example in 1950. One does not have to carry a gun and badge to contribute his share in solving the safety question," according to Kirkman.

The Florida Highway Patrol is continuing its traffic safety educational programs in 1950 on an all out basis, and is coordinating its statewide efforts with the National outline furnished by the National Safety Council. The value of a coordinated safety program has proven itself by the 12 percent reduction in highway deaths in Florida during the first 10 months of 1949. Federal accident statistics for the full year are not yet complete, but indications point to a slight decrease over 1948 when 715 people died on Florida highways.

Kirkman pointed out that common courtesy is the single quality which will do more than anyone thing to reduce traffic accidents.

"We believe that a firm New Year's resolution to practice courtesy at all times will automatically cause every driver to be an example for every other driver," said Kirkman. "At least the courteous drivers will have a clear conscience and an accident free year."

"Wear white at night when walking," is the advice given to pedestrians today by the Florida Highway Patrol in pointing out that darkness multiplies hazards for those afoot in traffic.

The Patrol pointed out that many pedestrians do not realize that drivers cannot see them at night until dangerously close.

They are even more difficult to see when wearing all dark clothing.

Specific suggestions were made by the State Patrol to pedestrians for increased visibility at night. Among them were to wear a large area of light until dangerously close to a handkerchief, or carry a flashlight.

The Patrol reports that even with these devices, pedestrians are dangerously difficult for

motorists to see at night. So those afoot at night must watch out for themselves.

Uncle Sam Made  
Rich By Florida's  
Income Tax Payments

Floridians paid \$242,558,244 in internal revenue to Uncle Sam during the last fiscal year according to the Florida State Chamber of Commerce.

This week's business review of the State Chamber's research and industrial divisions places this sum at almost twice the gross value of the 1946-1949 citrus crop.

The total collected in Florida was made up of \$194,748,026 in individual income taxes; \$70,840,057 in corporation income and profits taxes; \$20,880,709 in employment taxes and \$55,949,411 in other types of internal revenue such as taxes on liquor, tobacco, luxuries and amusements. Corporation and employment tax collections were greater last year than during the fiscal year ending in 1948.

How much Floridians pay in addition to the above, in excise taxes and so-called "hidden" federal taxes is not known.

"These war-time taxes designed to discourage business," the State Chamber said, "are still doing it in taking a terrible toll from private enterprise."

Florida Industrial  
Picture Indicates  
Growth During 1950

Florida's political climate is attracting the attention of business, just as its sunshine attracts visitors. McGregor Smith reported to state officials. He is chairman of the newly created Florida Industrial Development Board, appointed by Governor Warren to bring more light industry to Florida.

Chauncey Smith said he has had excellent reaction from his recent speech before the New York Society of Security Analysts, in which he said Florida's political climate also is something to brag about.

"Our legislators are leading bankers, ranchers, farmers and small and large business men," he told the financiers. "We have no punitive laws against business, no state income tax, no state property tax, no bonded state debt and no duplicating inheritance taxes."

Smith who is president and general manager of the Florida Power and Light Company, said his directors have authorized an \$18,000,000 construction pro-

gram for 1950 because of the bright outlook for Florida. A new plant at Palatka will be started, a large plant at Cutler for another generating unit at Sarasota will be finished and the entire state-wide system will be expanded during 1950, he reported.

New Poultry And Egg  
Market For Glades  
Country Poultrymen

E. C. Fogg, president of the Land O' Sun Dairy, at Moore Haven, is planning to add an additional line of business. He proposes to establish a market for the purchase of poultry and eggs, which will be disposed of in the Miami area.

Miami Alumni Of  
Mt. Union College  
To Hold Reunion

The alumni and students of Mt. Union College, at Alliance, who reside in the Miami, are to hold a dinner reunion at the New Student club at Miami University, on Sunday evening, January 29th. At this time President Charles B. Ketchum, president of Mt. Union, will be present.

Return on REAL ESTATE, TANGIBLE AND INTANGIBLE PERSONAL PROPERTY should be filed at this time. I respectfully urge all taxpayers to meet me at the various appointments and make their returns as early as possible.

If for any reason you cannot meet me at any appointed place, the Tax Assessor's Office in the County Court House will be open for the purpose of receiving returns until the first of April. After that date returns can be filed, nor can a homestead exemption be accepted. I shall be glad to wait the necessary times at anyone upon request.
